How to Conduct a Stewardship/Donor Relations Audit (Tune-Up) Presented by Kay Coughlin SEDRC, June, 2016

Why conduct a stewardship or donor relations tune-up? Pipeline and retention are at stake!

Definitions:

- 1. Stewardship an action triggered by a donation (transactional in nature)
- 2. Donor Relations all interactions with donors related to philanthropy (gift acceptance, acknowledgment, recognition, reporting)
- 3. Kay's definition of donor relations: any and all organizational programs, patterns and habits affecting donor experience and behavior

Identify:

1. **Possible donor relations programs** (even the ones fundraising doesn't "own"):

	·	,
Dinners	Thank you calls	Videos
Receptions	New donor kits	Phone calls
Alumni chapter events	Faculty lectures	Parking
Salons	Donor appreciation day	Insider access
Acknowledgements	Thank you Facebook post	Mentorship programs
Endowment reporting	Art openings	Facility tours
Giving societies	Loyalty donor recognition	Volunteering
Scholar meet & greet	Honor rolls/recognition	Committee service
Sporting events	Memorial/congratulations	Online giving
Impact reports	letters	Donor
Graduation	Stewardship plans	appointments/concierge
Reunions	Receipts	programs
Fast recognition	Gift agreements	Board recognition
Student performances	Students notes of thanks	Building dedications
Ribbon cuttings	Thank you gifts	Cumulative giving
Homecoming	Plaques and signage	programs
Database maintenance	Magazines/publications	Planned giving
Birthday cards	Parking	stewardship

4. Example: program/criteria matrix for comparison and deciding where to start

Criteria —— Program	Departmental Disconnect	Metrics & Goals	Systems Support/technology	Number of donors touched
Receipts	IT owns it, we have a good relationship with them	Struggle to meet 48-hour turnaround goal	New CRM/database will be in place within 90 days	ALL
Gift Agreements	Major giving owns this and they will work with us	No metrics/goals in place	Produced one-off using document template	Few, but they are top-tier donors

What's next for you?

- 1. Work the process alone or with colleagues
- 2. Go through the steps in order, then build your matrix
